

PRAVERSE TECH PVT LTD

COMPANY INTRODUCTION

Engineering human-centred intelligence

Enterprise AI for healthcare, pharma and regulated industries — and the high-speed interconnect layer for India's sovereign AI data centres.

praversetech.com · inquiry@praversetech.com · +91 93132 47264 · Vadodara, Gujarat, India

An Indian enterprise AI and infrastructure company

Praverse Tech builds AI systems that hold up in regulated, high-stakes work — and keeps a qualified expert in control of every important decision.

2023

Idea began

Vadodara

HQ, Gujarat

India • US • EU

Markets served

MENNIE

Healthcare AI, in development

Interconnect technology: our USA partner · Pharma advisory: SWATI Spentose (V-Group, est. 1952)

Four focused business lines

Enterprise AI & Agents

Agents, copilots, RAG search and production ML that live inside real workflows.

Agents · RAG · MLOps

Pharma & Regulatory AI

FDA 483 responses, CAPA, data integrity and inspection readiness — every output expert-reviewed.

GMP · 21 CFR 211 · ICH

Healthcare AI

MENNIE, our voice-first patient assistant, plus imaging and screening support.

MENNIE · Imaging · Edge AI

NEW

Photonics & AI Data Centres

High-speed copper and optical interconnect for India's sovereign AI data centres, with our USA technology partner.

800G · 1.6T · India partner

One rule across all four: the system drafts, analyses and flags — qualified people decide.

Deployed where a wrong answer has consequences

Pharma AI suite

Eight quality-system modules, each evidence-linked and approved by QA before use:

FDA 483 response assist

OOS / OOT analysis

Data integrity (ALCOA+)

Documentation intelligence

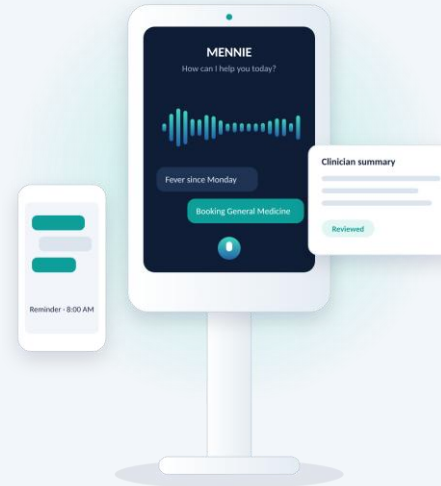

CAPA reasoning

Quality risk management

Human error investigation

Inspection readiness

Designed around USFDA 21 CFR 211 · ICH Q9 · ICH Q10

MENNIE

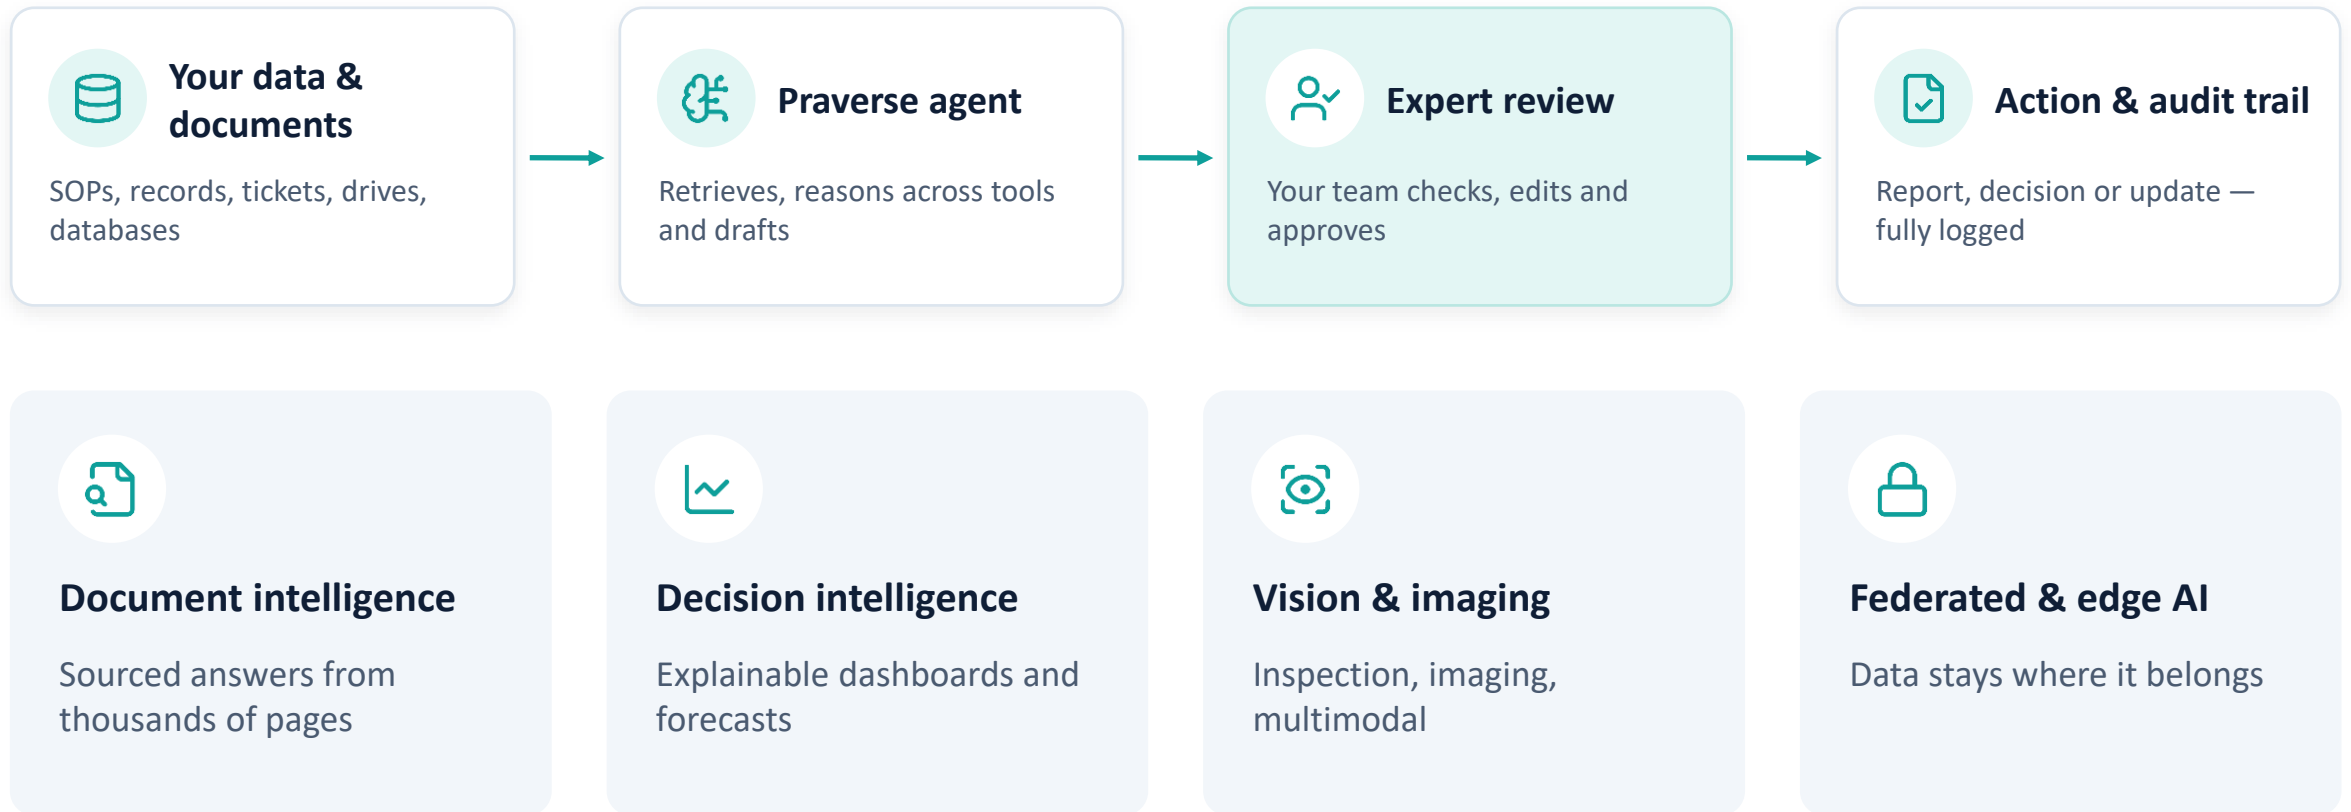

Voice-first patient assistant: intake, doctor matching, reminders and clinician-ready summaries.

Track record

Edge eye screening (2023) · Retinal imaging for diabetic macular edema (2023) · Ultrasound screening pipeline (2024)

Agents that do the work — your experts decide

Agents, copilots, RAG search and production ML, built around one rule: the system drafts, your team decides.

Connectivity for India's sovereign AI data centres

India data-centre capacity, GW (actual vs. 2030 forecasts)

India partner for AI-cluster interconnect

Copper and optical interconnect for AI clusters, 100G to 1.6T.

Indian engineering & support

Architecture, design-in, integration and qualification for Indian projects.

Roadmap to localisation

Local testing first; assembly in India as volumes justify it.

Sources: MeitY (actuals, Mar 2026); Savills India (Jul 2025); Colliers (May 2025); Wood Mackenzie via IANS (Jul 2026). Forecasts vary widely.

AI engineering, backed by deep pharma expertise

Pratham Shrivastav

Founder & CEO
Praverse Tech Pvt Ltd

- Began Praverse in 2023 as a research question; incorporated it in 2026
- Peer-reviewed work in imaging, edge AI and simulation
- Leads the full stack: pharma AI, MENNIE and photonics

Vishal Jajodia

Strategic Advisor
MD, SWATI Spentose

- 30+ years in specialty pharma, from formulation to global regulatory strategy
- Guides our sovereign AI data centre and photonics direction
- IDMA-APTAR Innovation of the Year 2022

Ashwani Shrivastav

Managing Director
Nexgen Pharma Solutions Pvt Ltd

- Pharma quality expert: QMS, QA, QC and DMF filings in eCTD format
- Inspection support: USFDA, EU-GMP, WHO-GMP, EDQM, ANVISA, MFDS (Korea)
- Brings hands-on GMP and inspection practice to our pharma AI
